

How to use the Tie Dye Diva Sugar Dot Dress Maker:

Be sure this document is opened with Adobe Reader and not any other PDF viewer (including the mobile viewer)

Use the “Layers” tab on the left of your Adobe PDF reader screen. It looks like a stack of papers.

Click the boxes to choose a Front, a Back, and other options for your Pinafore. If text overlaps, you can't choose those options together. For example, you can't have a square bib back and a tie back - you need to choose only one back.

Print, or just save for future viewing as you plan your project!

The Sugar Dot Dress pattern is at www.tiedyedivapatterns.com
